SUMMARY :

An aspiring web developer skilled in HTML, CSS, JavaScript, Bootstrap, and React, passionate about building responsive and interactive web applications. With a focus on clean design and user experience. Eager to explore and master advanced web technologies to deliver innovative solutions.

PROJECTS :

QR Code Generator
(React JS, CSS)

Project Link

- The QR code generator built with React JS enables users to create scannable codes from text or URLs, with a simple, real-time interface.
- Additionally, it allows users to download the generated QR code as an image for easy sharing or printing. This tool simplifies the process of creating and saving QR codes for various applications.

Gym Website
(HTML, CSS, Bootstrap)

Project Link

- Crafted an interactive gym website employing HTML, CSS, and Bootstrap. Which Streamlined the user registration process and increased sign-ups by 25% within the first quarter after launch.
- Designed for a modern, responsive layout to effectively showcase fitness services.

Creative Digital Agency Website
(HTML, CSS, Bootstrap)

Project Link

- I Developed a Digital Agency Webpage using HTML, CSS, and Bootstrap.
- Responsive design features an elegant layout showcasing services, portfolio, and client testimonials.

Grocery Store Website
(HTML, CSS)

Project Link

- I Developed a Digital Agency Webpage using HTML, CSS, and Bootstrap.
- Responsive design features an elegant layout showcasing services, portfolio, and client testimonials.
